

## CAMPBELL RIVER

# “FISHING REPORT”

The following information is compiled from a small sampling of guides, resorts, and tackle shops in the Campbell River area.

**For the Week of August 11 - 18**

The week started off a little slow due to commercial fishing opening for the season, but it seems to be picking up again!

**Elk Falls Fishing Resort** has been up North around both Chatham and Ripple Points, and doing Good! They have been reeling in mostly springs, and in the past week caught a 29lber!

**Mid Island Fishing Charters** have been up North as well at a bunch of popular spots including Hull Point, Green Sea Bay and Thurston Bay. They have been catching sockeye, pinks and the odd Coho and Chinook. It has been up and down for them as they reeled in a 25lber and a 26lber vesterdav. but today didn't have as much luck!

**Painter's Lodge** has been doing pretty good as well as they have been catching a lot of Tyees and a good amount of sockeyes as well! A 32lb Tye was Painter's biggest fish this week!!

**Keep on  
Fishin!!**
